Itemized lists

- ▶ One item
- ▶ Two items
- ▶ More items

Enumerated lists

1. Very similar to itemized list
2. Only using numbers instead of bullets

I can do pretty math!

$$y = 2x + 3 \quad (1)$$

Theorem

In a right triangle, the square of hypotenuse equals the sum of squares of two other sides.

Tables

Description	Order of growth
Constant	1
Logarithmic	$\log N$
Linear	N
Linearithmic	$N \log N$
Quadratic	N^2
Cubic	N^3
Exponential	2^N

Blocks

More precise definition

Given two nonnegative functions f and g , $f(N)$ is $O(g(N))$ iff \exists constant $c > 0$ so that $f(N) \leq cg(N)$
